

Press release, April 2026

swissQprint Japan announces May open week

swissQprint Japan will host a VIP open week from 19 to 22 May 2026 at its Shin Yokohama showroom, presenting the latest generation of flatbed printers alongside a brand-new print sample series debuting in Japan. The event coincides with FESPA Global Print Expo 2026 in Barcelona, where swissQprint will be showcasing its portfolio.

At FESPA Global Print Expo 2026 (hall 3, stand B140), swissQprint will present its current large format printer range under the motto "Made for Winners - Loved by Thousands". The Swiss manufacturer will demonstrate how customers achieve outstanding success with its solutions. Visitors to the Shin Yokohama open week from 19 to 22 May 2026 will benefit from a more personal setting to explore the same technology closer to home.

Advanced flatbed range

The latest flatbed models offer enhanced productivity, precision, and application diversity. They feature 10 freely configurable colour channels for maximum versatility. The Nyala 5, representing the range, will be on display. It has been the most popular printer in its class in Europe for the past eleven years. The machine features a 3.2 × 2 m flatbed and supports options such as a 3.2 m roll to roll configuration, a dual roll option for increased productivity with narrow rolls, and an oversize board option for rigid media up to 4 metres in length. All printers come with a 36-month warranty for peace of mind.

New sample series debut in Japan

During the open week, swissQprint Japan will unveil a new print sample series. The collection demonstrates the full creative and technical potential of swissQprint large format printers and provides practical inspiration for high-value productions. Among other applications, some samples feature neon prints or colour-changing effects enabling users to stand out in a competitive market.

Sessions by appointment

Visitors can attend VIP sessions to explore the printers' capabilities and business benefits in detail. Attendance is by appointment, ensuring personalised consultation. Venue: swissQprint Japan 株式会社, 1F VORT Shin Yokohama, 3-2-6 Shin Yokohama, 222-0033 Kohoku-ku Yokohama. Bookings by phone: 045-624-9991 or e-mail: info@swissqprint.co.jp.

About swissQprint

swissQprint is a privately owned Swiss manufacturer of large format printers. High precision, outstanding performance, exemplary service, and exceptional reliability drive swissQprint's innovation in digital printing. More than 220 employees are proud to stand behind the swissQprint name.

From signage and POS displays to art reproduction and bespoke industrial applications, swissQprint customers can always rely on state-of-the-art inkjet solutions. Providing the local service and quality swissQprint is known for, the Yokohama office is one of six subsidiaries that support swissQprint's products around the world.
